LAUNCH OF THE ACTIVITY

January 2022

MAIN OBJECTIVE

ESA-Global Development Assistance (ESA-GDA) programme focuses on the targeted Agile EO Information Development (GDA-AID) applied to 11 thematic priority sectors. The Fragility, Conflict and Security programme engages with IFI partners to codesign tools in support of ongoing initiatives for reducing poverty, supporting the economic development and the environmental safety.

A multidisciplinary approach is applied to developed products: geospatial data combined with heterogeneous sources to improve decision making processes.

MAIN THEMES ADDRESSED USING EO INFORMATION:

Improve assessment of exposure to fragility risks, analysis of coping capacity.

Effective characterisation of dynamics and needs in FCS contexts.

Enhanced generation of information services for planning, monitoring and managing post-conflict reconstruction activities.

Better assessment of assets and natural resources.
