GDA Agile EO Information Development (AID) activity on Climate Resilience

ACTIVITY OVERVIEW

IMPLEMENTING CONSORTIUM

GMV (ES), SISTEMA (AT), GeoVille (AT), JBA Consulting (UK), WTW (UK), Telespazio UK (UK), CMCC Foundation (IT)

INTERNATIONAL FINANCIAL INSTITUTIONS PARTNERS

World Bank Group, Asian Development Bank

LAUNCH OF THE ACTIVITY

December 2021

MAIN OBJECTIVE

The main objective of GDA AID Climate Resilience is to collaborate closely with International Financial Institutions (IFIs) to integrate Earth Observation (EO) information into climate-related services. The consortium provides support for monitoring, surveillance, and decision-making processes of IFI climate investments, benefiting stakeholders in their client states.

MAIN THEMES ADDRESSED USING EO INFORMATION:

Improving climate risk management in low-income countries.

Monitoring of interventions and estimation of emission reductions.

Predictive capabilities that work with different climate change scenarios.
