GDA Agile EO Information Development (AID) activity on Water Resources

ACTIVITY OVERVIEW

IMPLEMENTING CONSORTIUM

EOMAP GmbH (DE), Brockmann Consult GmbH (DE), GeoVille Information Systems and Data Processing GmbH (AT), Gisat (CZ), GMV (ES), Gruner Stucky Ltd (CH) and UFZ - Helmholtz Centre for Environmental Research (DE)

INTERNATIONAL FINANCIAL INSTITUTIONS PARTNERS

World Bank Group, Asian Development Bank

LAUNCH OF THE ACTIVITY

February 2023

MAIN OBJECTIVE

The main objective of the GDA AID Water Resources activity is to provide Earth Observation (EO) Information in response to requirements identified in the water management domain by International Financial Institutions (IFIs) and their client governments in developing countries. The consortium collects the operational needs of IFI projects and programmes to identify innovative applications, which are being rolled out for selected countries.

MAIN THEMES ADDRESSED USING EO INFORMATION:

Water availability

Water quality

Water governance

Water-related disasters
