GDA Agile EO Information Development (AID) activity on the Marine Environment and Blue Economy

ACTIVITY OVERVIEW

IMPLEMENTING CONSORTIUM

Planetek Italia (IT), AirCentre (PT), Climate Impact (IT), EOMAP (DE), Geoville (AT), Terrasigna (RO), University of Palermo (IT)

INTERNATIONAL FINANCIAL INSTITUTIONS PARTNERS

World Bank Group, Asian Development Bank

LAUNCH OF THE ACTIVITIES

June 2022

MAIN OBJECTIVE

This initiative aims to promote economic development and the protection of coastal and marine ecosystems through the development of Earth Observation (EO)-based products and services. It focuses on improving fisheries governance, managing marine pollution, ensuring integrated seascape management, and fostering the growth of the oceanic sector. These goals are supported by investments, policy reforms, and coordination strategies aimed at safeguarding coastal and marine assets while still supporting economic growth.

MAIN THEMES ADDRESSED USING EO INFORMATION:

Improved fisheries governance

Marine Litter and Pollution Management

Blueing oceanic sector

Integrated seascape management
