

Triangular Cooperation at the European Space Agency

* acknowledging inputs from the broader Caribou Team

Webinar background

Part of a series of webinars under the GDA
Monitoring & Evaluation activity

About: exploring how ESA uses triangular
cooperation to bring EO into development decision-
making, through two live examples: the ESA–
UNOSSC partnership and ESA's engagement with
climate funds.

Central anchor question: What role does ESA play
in helping its partners make better use of Earth
Observation to deliver on their development
mandates?

Hosts & panellists

Jasmin Jilma

Graduate Trainee
European Space Agency
(ESA)

Dumitru Vasilescu

Research Specialist
United Nations Office for
South-South Cooperation

Alex Chunet

EO Applications Specialist
European Space Agency
(ESA)

Carlotta Maucher

Analyst in Climate &
Space team at Caribou
